Cherie....good afternoon...I am attaching information related to the limited development easement that was enacted in March of 1989. In addition, I am attaching a map of the area in question along with ownership information.

As for a name, I have not run across one but it does reference in the easement the Barker's Island Bird Sanctuary.

Section 16; Township Forty-Nine (49) North; Range Fourteen(14) West

Please let me know if you have any questions. Thanks!

Jason Serck

Subject: City of Superior Conservation Easement - Paine Property

Hello Jenny and Jason – I was able to connect via email and voicemail with Nicole Flamang from Real Estate to provide more direction on next steps. If the City could please gather the information below that would be wonderful and also a brief summary of the concerns or request you have. Also copied

Steve LaValley who has some historical knowledge of property. Since many of us don't have the history it will be helpful to review this information in advance so we have a bit of background before we meet to discuss. Thanks so much!

- Provide copy of **conservation easement**. Most conservation easements are perpetual and run with the lands, each of restrictions and reservations. It's really hard to tell without having a copy of the actual easement to reference. The easement should have shown up on the buyers title search.
- Section, Township and Range **location of this easement**. Is there a name of the Lake Superior Wildlife or Fisheries area in question? Originally this easement was linked to the Barker's Island Bird Sanctuary, not sure if the property in question has a name.
- Confirm **current property owner** is Thomas Paine. I think property was originally the City's but it was sold to Thomas, but I'm not sure.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Hi Jenny,

The registrar of Deeds at the courthouse will have all the paperwork with the purchase of the property. Years ago I went in and had to use their computers to look the documents up. I am out of town for a few weeks so I am not able to assist. We have letters at the office in Superior from the DNR but they are more recent and not helpful. I don't believe we were ever given notice of the bird sanctuary being moved to our land.

There is not a sunken ship in front of the house, that is a barge used as a dock. As far as the land trade vs sale I will have to get clarification from my dad, my only thought is maybe the registrar has something in writing based on the sale of the land he purchased from the city.

Thanks for your continued help with this.

So I had a meeting with Cherie Hagan w/ the DNR about the 'conservation easement'

This is going to be a tough untangle, but we can handle it.

First things first: we need to collect as much documentation on the property as possible. Any letters, deeds, emails notices etc from the city or DNR (especially to identify names and departments of folks that are in the loop and can help.)

Cherie Hagan is going to reach out to our local DNR guy Steve Lavelle in hopes that he has some historical context of this easement. As well as DNRs real estate branch

to start sorting out the options
Reduce the footprint of the easement,
trade it for a different parcel within the city etc
As best I understand it, fred sold or traded the property near barkers island?
Fred purchased the lot he's on now, or received it in trade?

Also, is there some kind of sunken ship on the shoreline over there?

Thank for helping me get to the bottom of this— we'll get there

Cherie:

First, I just wanted to say how much I appreciated getting to meet you on Friday and to see such strong support from DNR folks at the land transfer event.

I was also hoping to quick check in with you regarding a more local issue one of our residents is trying to clear up in Billings Park and this bird sanctuary.

Any chance you might have a few minutes in the next couple weeks?

Thank you!
